# Concept 2

# Concept 8

# Concept 9

*I do not feel that having parking abutting the neighbors to the right of the building is a good idea.*

*I prefer the school to be away from the road as much as possible, maybe spread the overall building out with new concepts of the design, not just boring brick and mortar.*

*Providing open space adjacent to the neighbors is extremely important. Should be a neighborhood feel, not urban / city like.*

*I prefer ample parking over aesthetics, especially if it gives us the opportunity to eliminate the need for Juniors to park along the busy street.*

*I feel that the classroom wing should be in a quiet area - not on the street.*

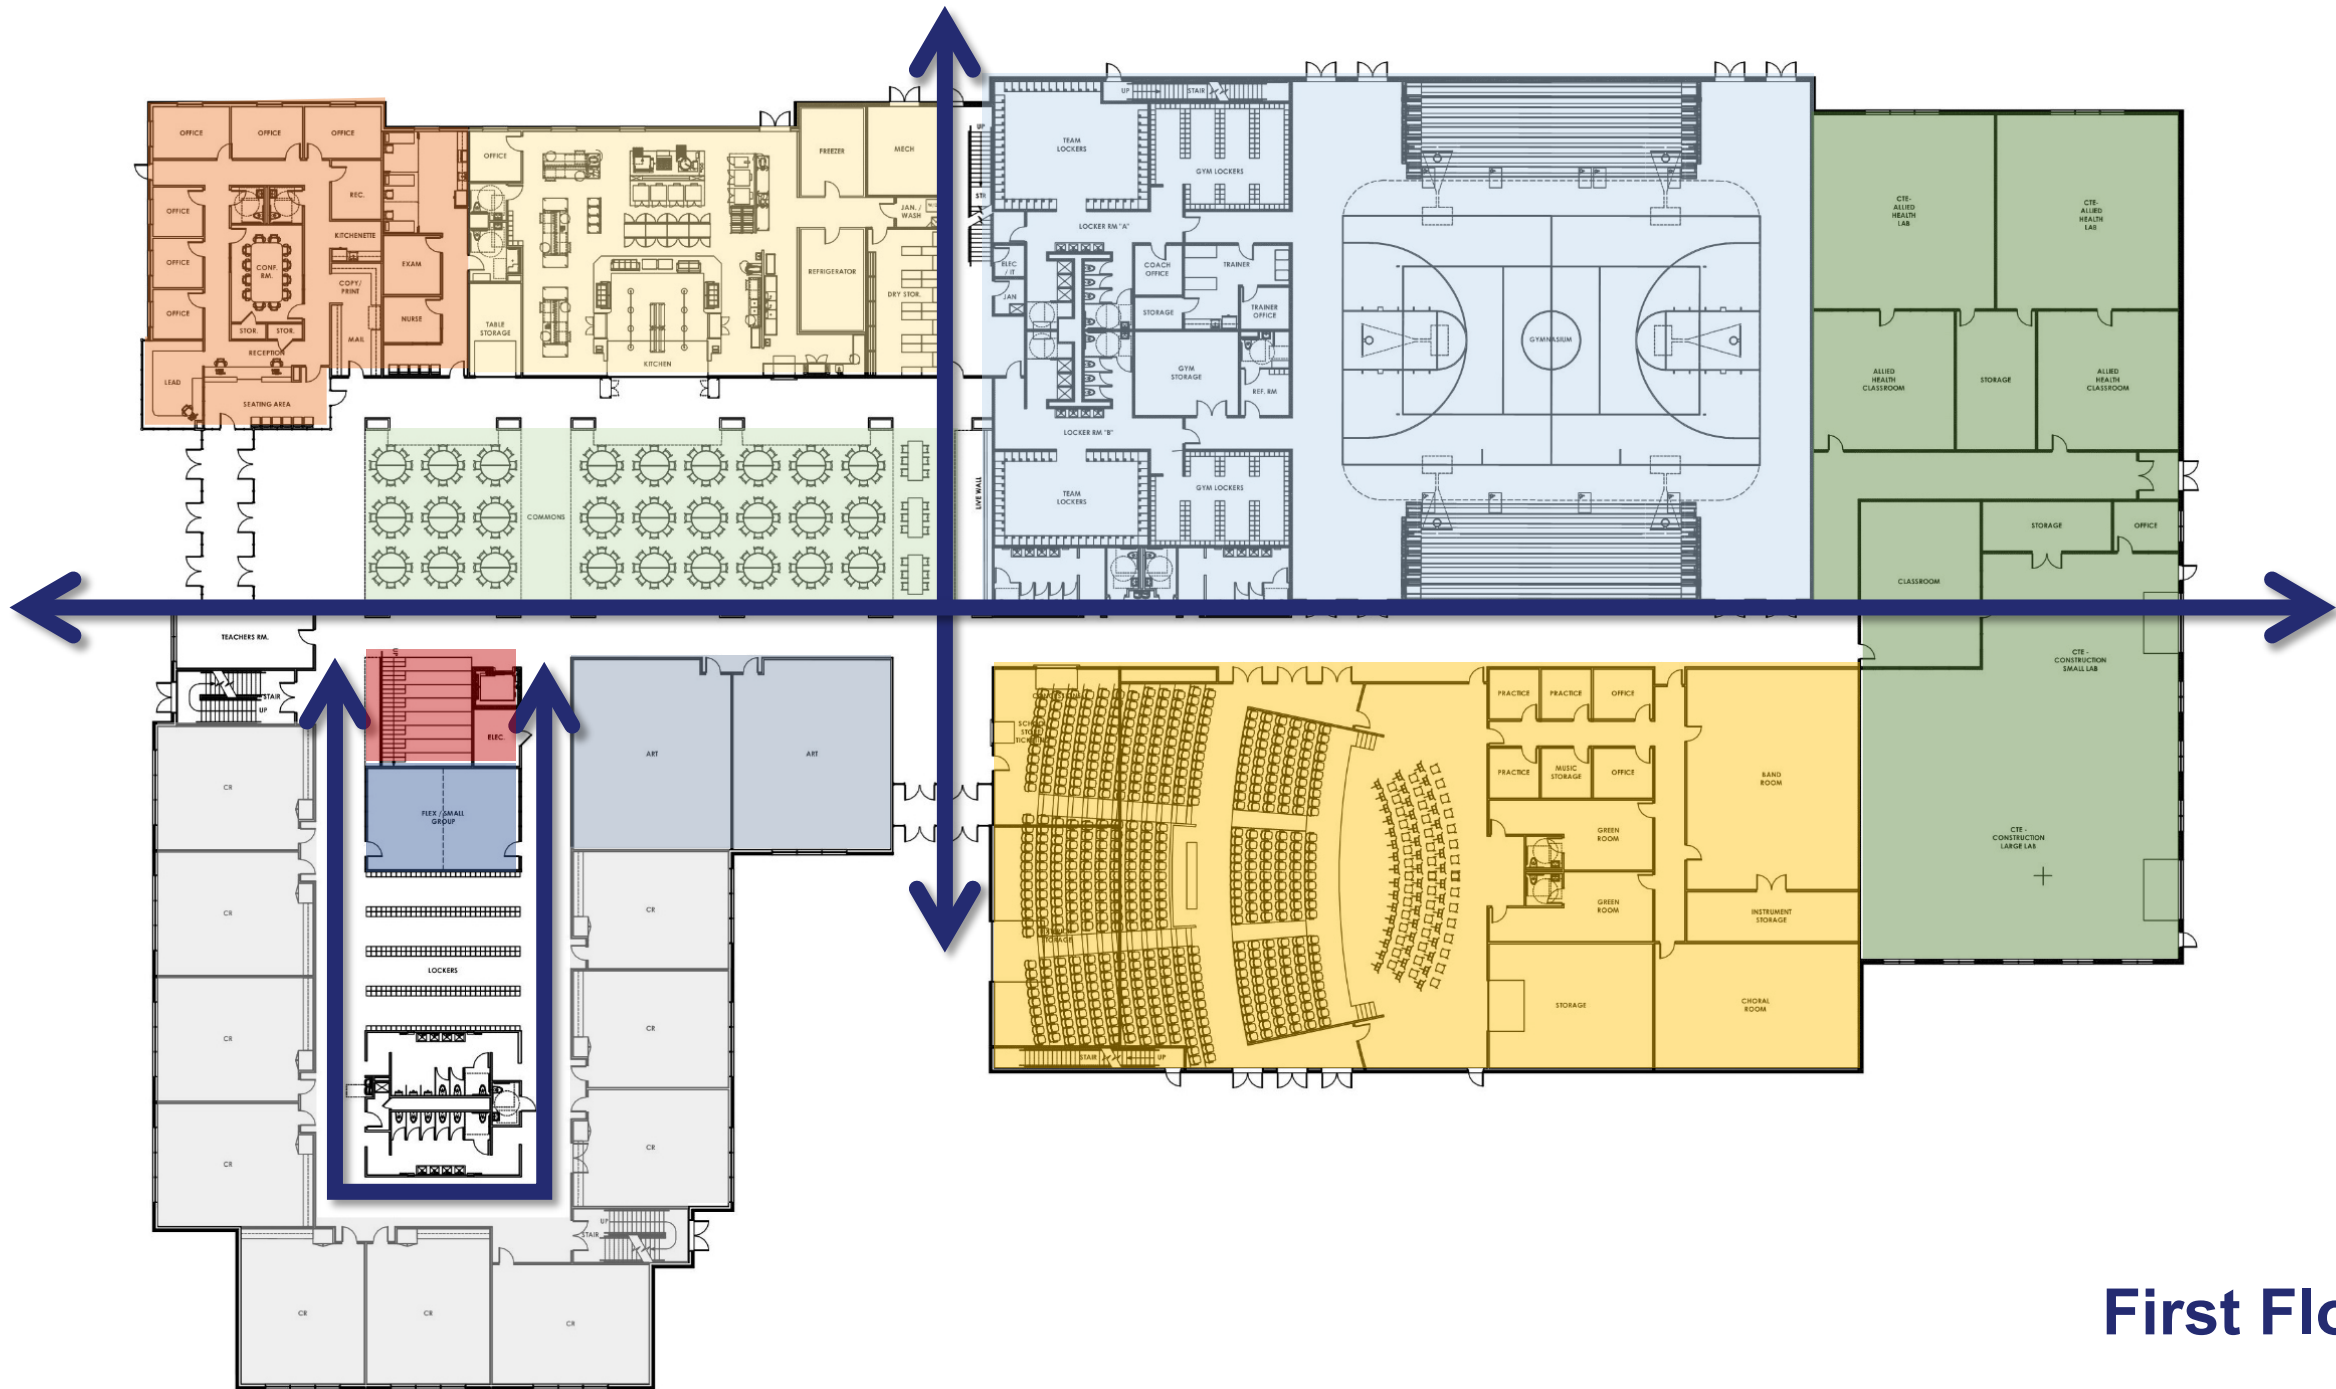

*I like the outdoor eating area, an entry plaza that is accessible for parent pick-up drop off, and as much parking as possible for students/faculty.*

*The idea was to have open space where the current high school is. Fit the new high school and parking on the School Street side.*

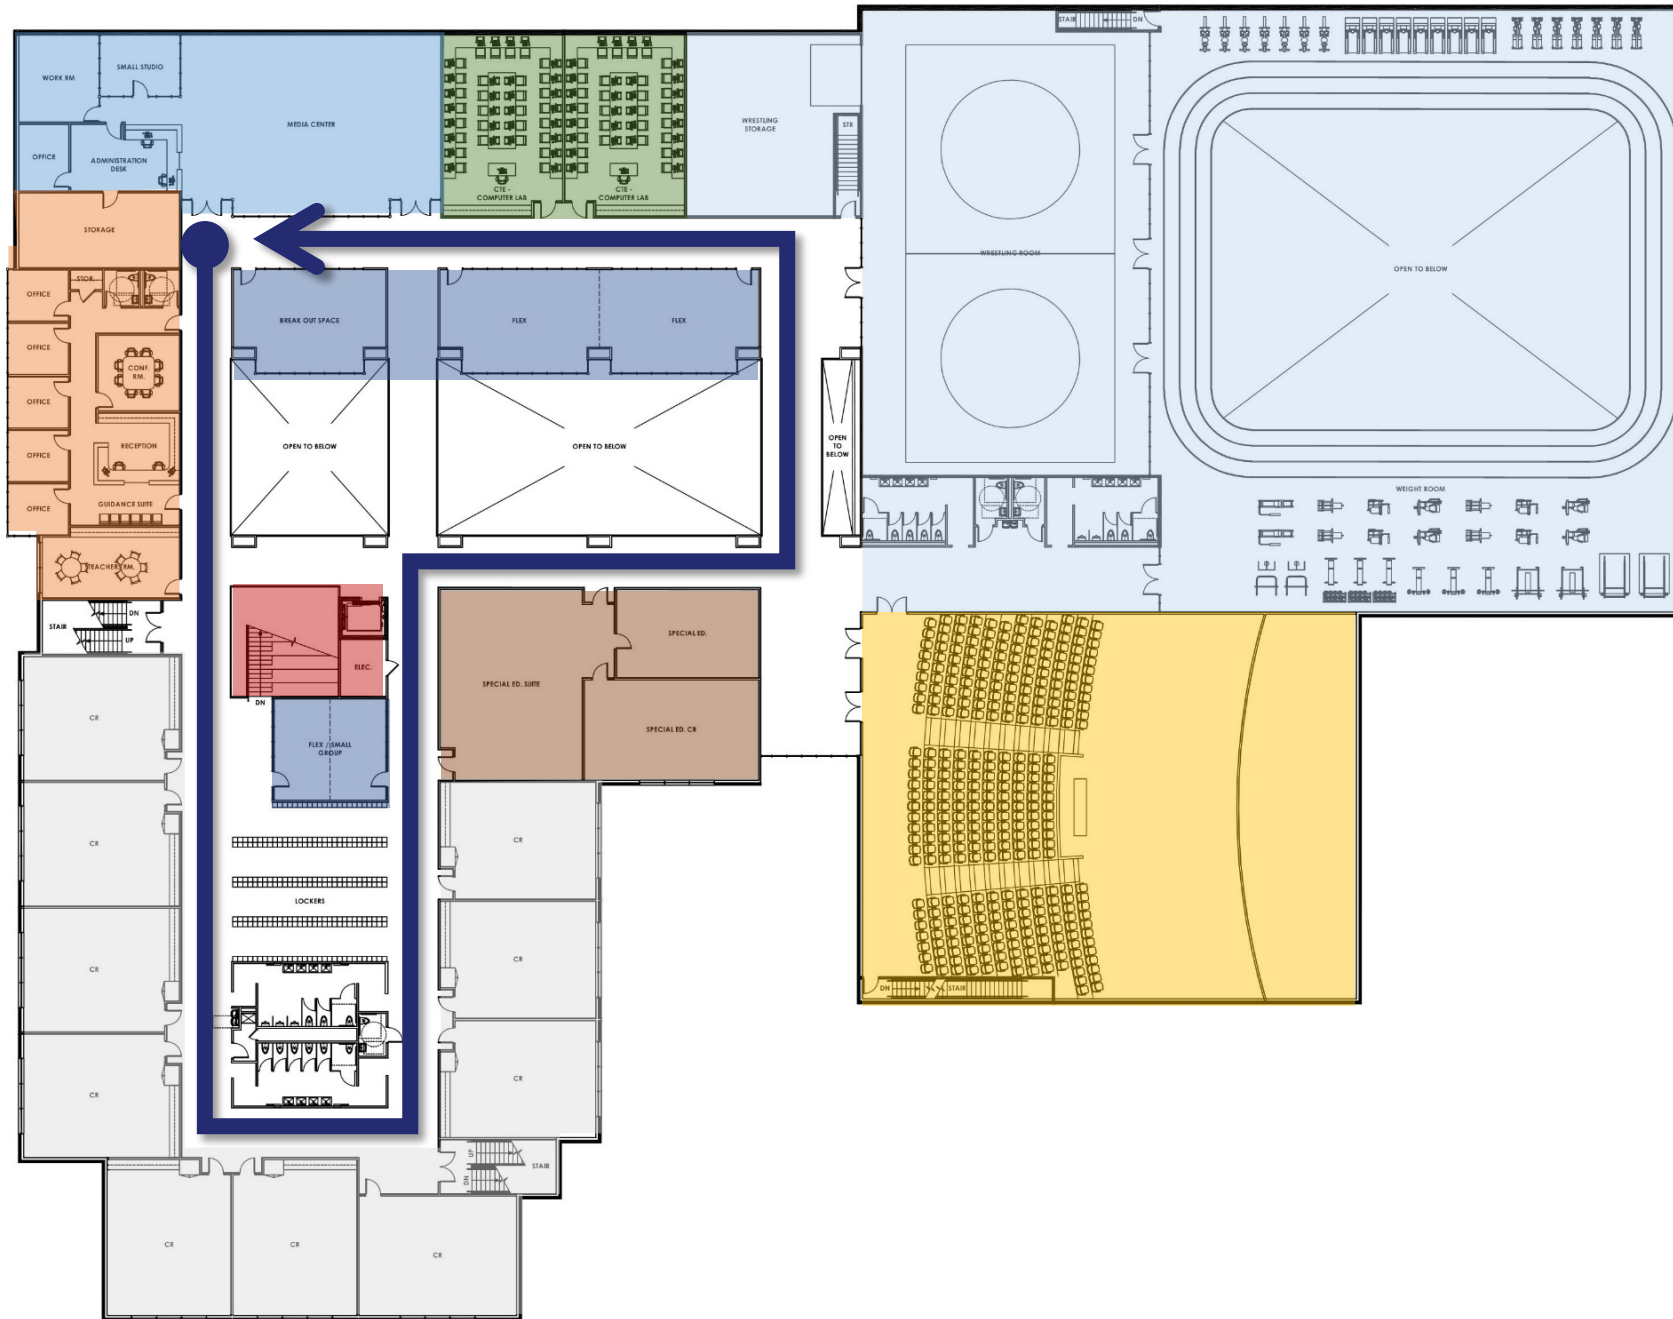

*Parking spaces should take precedence over outdoor eating which can only be utilized a few months of the year.*

*We want any plan with outdoor eating and no playground.*

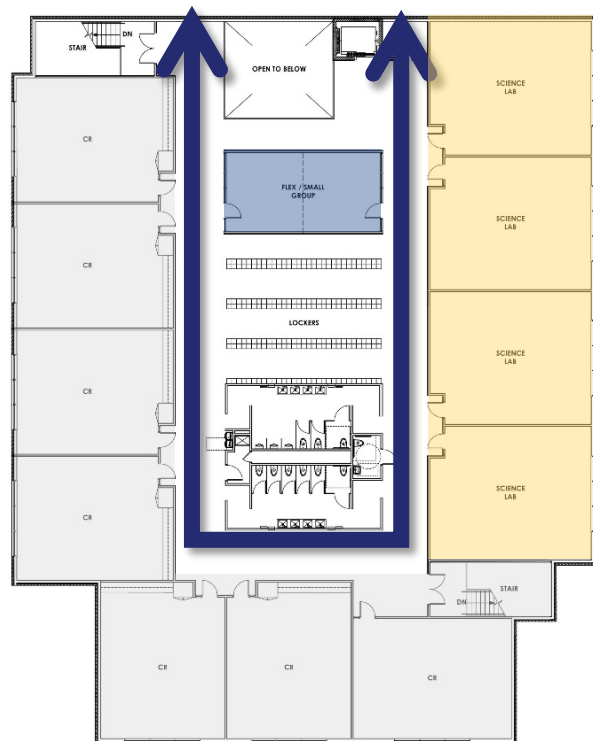

Thank You
